### **Petenwell Wildlife Area Closed to Archery Hunting**

**Necedah, WI** – Wisconsin River Power Company (WRPCO) has closed the entire Petenwell Wildlife Area to archery hunting for 2013. This includes the area located from the Strongs Prairie Cemetery, east to 20th Avenue, and north of Chicago Drive, which has been open to archery hunting in the past. The area is being closed to facilitate a firearms hunt for disabled hunters. In the past, archery hunting in this area has impacted hunter success during the disabled hunt.

The entire Petenwell Wildlife Area will be closed to ALL public access from October 1 to October 14 to ensure public safety during the disabled hunt.

While the Petenwell Wildlife Area is closed to hunting, all other WRPCO owned forestlands remain open for hunting during all legal hunting seasons. If you need more information on WRPCO lands open to hunting, please visit our webpage at [www.wisconsinriverpower.com](http://www.wisconsinriverpower.com).
